INFINITE TREE 2021 CATALOG

USDA Organic Hemp Nursery Products | Agricultural Services

Proven Success in the Marketplace

Exceptional Seed to Harvest Support

Reliable Field Trialed Cultivars

What We Do

We specialize in cultivars that deliver craft hemp flower with proven performance in the field and in the

marketplace.
Each year we provide high quality, rare cultivars, from our farm and research center

in Southern Oregon. We are proud to be one of the first hemp nurseries with USDA Organic certification.

- Organic certified feminized seedlings in 72ct trays.
- Seedlings always at their peak of perfection; nationwide.
- Exceptional craft flower cultivars that make your product line stand-out from the competition.

OUR STORY

We are a team of growers, scientists, and engineers dedicated to developing best-in-class hemp for farms across the U.S.

As industry leaders we conduct rigorous evaluations of practices and products, lecture at conferences and provide educational workshops. At our farm and research center we develop and test new cultivars. We take pride in working with clients to provide them with the right plants to meet their farms' needs.

OUR PARTNERS

**EAST FORK
CULTIVARS**

East Fork Cultivars is known nationally for exceptional craft hemp flower, achieving accolades for highly desirable and marketable cultivars. Year after year their products earn a high price point, sell out, and win awards in competition. Their team is committed to sustainable agriculture and conducts rigorous field trials to ensure the production of reliable and exceptional craft hemp flower.

<https://www.eastforkcultivars.com>

Northern Roots Nursery has created a lineup of cultivars that exhibit exceptional qualities in the field and produce ideal craft flower. The cultivar Suzy's Gift was a star in our 2020 field trials.

OREGON GUAVA

OREGON GUAVA

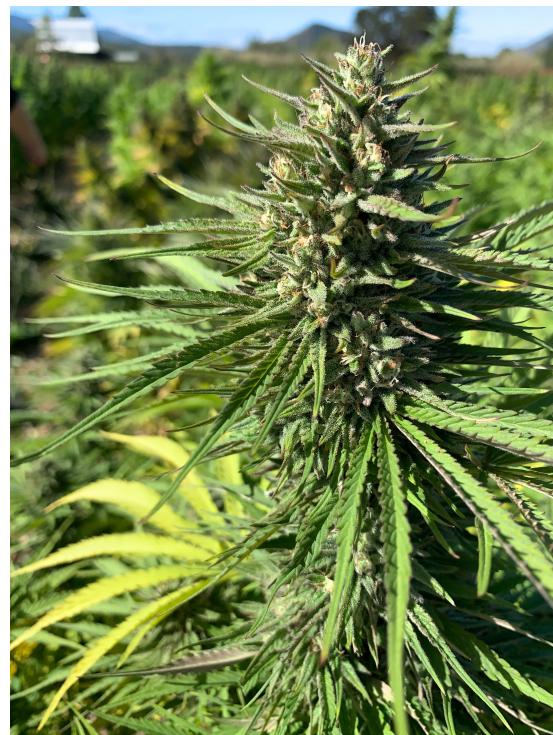

This is a rare opportunity to produce a Cultivation Classic winner on your farm. Oregon Guava won Bronze in 2019 with its luxurious bud and intense aromas of tropical fruit, namely guava.

Oregon Guava exhibits excellent field characteristics; uniform development with large colas throughout that are ready to harvest early to mid-October.

A favorite in the trim room for its' low-leaf content that easily trims up.

- Flagship cultivar with national appeal and recognition.
- 2019 Cultivation Class Bronze Winner in Hemp Category.
- Exclusive, limited production for 2021.

Benchmarks

Plant Structure	Upright and bushy pincushion.	★★★★★
Bud Structure	Dense pyramidal buds mostly in wide contiguous colas.	★★★★★
Terpene Profile	Aromas of tropical fruit, namely guava. Upfront and strong on the nose +3% in the lab.	★★★★★
Field Variation	Very uniform overall with up to 15% maturing earlier.	★★★★★
2020 Market Value	\$400-\$700 / lb	★★★★★

We Love Sharing Data!

A lot of work went into setting these benchmarks, and we are happy to share the data with you and answer any questions. Reach us at **541.937.5237** or at hello@infinite-tree.com

"Selecting East Fork Cultivars for our boutique hemp flower top shelf was an obvious choice, their varietals check all the boxes that our customers are looking for and they align with our sustainability-minded values!"

Drew Kitt, Two Moons CBD.

OREGON SWELL

OREGON SWELL

A standout in the craft flower market in 2020, Oregon Swell delivers a wave of uniform plants with a pincushion structure that features very dense primaries. Ready to harvest early to mid-October, just after Oregon Guava.

With an intriguing set of aromas, combining zesty citrus and earthy pine, with gassy overtones.

- National appeal and recognition in the craft flower market.
- Exclusive, limited production for 2021.
- Does well against an early frost.

"Always great to work with Emily and her team, they deliver quality products and work closely with me to meet my needs." *Les Bruner, HempWorldWideshop.com*

Benchmarks

Plant Structure	Mostly pincushion form with with the occasional dominant apical.	
Bud Structure	Medium dense mostly in wide, contiguous colas.	
Terpene Profile	Aromas of citrus, pine and gas. Builds like a swell from the inhale to exhale. +1% in the lab.	
Field Variation	Matures evenly with consistency even after frost.	
2020 Market Value	\$400-\$700 / lb	

Photos, Videos & Samples Oh My!

We have presented a snapshot of each variety here, and are excited to share the complete portfolio with you. We also love questions! Reach us at **541.937.5237** or at **hello@infinite-tree.com**

SUZY'S GIFT

SUZY'S GIFT

Released to the craft flower market last year, we are excited to bring this Suzy's Gift forward for nursery production. A care-free plant with a bushy structure that stands up to wind and rain. Suzy's Gift features dominant apicals and secondaries that are just as thick and dense, which really is a gift.

Buds are large, dense shaped like golf balls, with excellent resin production. Beats even Oregon Guava in the trim room, it is so easy and economical to trim into craft flower.

Ready to harvest late September to early October before both Oregon Guava and Oregon Swell. 90% of population is bright green, with the remainder turning an intense purple; otherwise equivalent.

- Successful sales in the craft flower market during its' first year.
- Earliest maturation during field trials; potential for two harvests.

"Thank you so much for taking the time to work with me and lend your expertise." *Andy Hazzard, Hazzard Free Farms*

Benchmarks

Plant Structure	Dominant apicals with equivalently large secondaries.	★★★★★
Bud Structure	Dense golf balls all along the colas; retains width and density. Fantastic to trim.	★★★★★
Terpene Intensity	Sweet pine and clean linen, very upfront on the nose.	★★★★★
Field Variation	90% bright green, 10% purple. Height and structure is uniform, some variation in terpene intensity and aroma.	★★★★★
2020 Market Value	\$300-\$400 / lb	★★★★★

RESOURCES

Detailed Agronomic Information

Our team wants to hear from you! Give us a call. We want to learn about your farm, and your needs, so that we can provide recommendations based on current agronomic research. Site design. Cultivation. Harvesting through post harvest. Please get in touch, we are here to help and love talking hemp agriculture.

Our Products

Feminization & Purity	Lab tested for feminization. All of our seed is produced indoors in controlled facilities.	Photos	We have many photos of each cultivar throughout development.
USDA Organic Seedlings	Our seedlings are produced under standards that exceed USDA Organic certification requirements. Just ask us about our production program!	Videos	Cultivar walk-throughs in the field.
Availability	Our cultivars are produced as limited editions, available for cultivation by only a handful of farms. We ship nationally; pickup is also available from our farm.	Fall Showcase	A special event in the Fall at our research center to assess our cultivars in person.
Market Relevance	Rare, high-quality, craft hemp flower ensures that your product line stands-out from the competition. New releases with proven market performance every year.	Craft Flower Samples	Call for availability and current listings.
Field Tested	Even for scientists, we collect a lot of data, before releasing a cultivar to the nursery market. Get in touch, we are happy to share what we know.	Customer Testimonials	Call for references.

We look forward to hearing from you!
